Fifth summary report on results of industry testing of meat products

Second quarterly report, 7 October 2013

This is the second quarterly report on the results of industry testing for horse in meat products. It reports the all test results submitted since the compilation of the first quarterly report, published on 13 June.

Results for this report were collated, verified and reported via an independent third party clearing house provided by Campden BRI.

Table 1a New results since the last report (13 June 2013)

Sample type	Testing for horse		
	Total number of tests	Tests negative for horse	Tests positive for horse (see notes)
Beef products			
Products	2562	2562	0
Raw materials/ingredients	7026	7026	0
Total	*9588*	*9588*	*0*
Other (non-beef) meat products			
Products	510	510	0
Raw materials/ingredients	1817	1817	0
Total	*2327*	*2327*	*0*
All tests	**11915**	**11915**	**0**

Notes to Table 1a: new results

1. For the purposes of this testing, a level of 1% (DNA or meat) is being used a pragmatic level to distinguish between gross contamination or adulteration, and 'trace' levels of carry-over from one species or product to another.

Table 1b All results submitted

Sample type	Testing for horse		
	Total number of tests	**Tests negative for horse**	**Tests positive for horse**
Beef products			
Products	9810	9763	47
Raw materials/ingredients	22594	22594	0
Total	*32404*	*32357*	*47*
Other (non-beef) meat products			
Products	1300	1300	0
Raw materials/ingredients	2691	2691	0
Total	*3991*	*3991*	*0*
All tests	**36395**	**36395**	**47**

Notes to Table 1b: all results submitted

1. The total number of test results positive for horse includes multiple tests on individual affected products.
2. All results positive for horse are reported immediately to FSA. There are no new positive results in this report. All the positive results reported in this collated report relate to products for which appropriate action has been taken, including withdrawal and appropriate notification to customers and consumers, and which are being investigated. Details of these products are given in the previous summary reports, published on the FSA website at: http://www.food.gov.uk/enforcement/monitoring/horse-meat/horse-meat-test-results/)
3. FSA is also aware of a number of other positive results which have been detected through other testing and investigations by the FSA and by local authorities. These are reported on the FSA website http://www.food.gov.uk/enforcement/monitoring/horse-meat/horse-meat-consumer-advice/
4. The businesses and organisations which provided data are listed in Table 2.

Table 2	
Fifth report on results of industry testing of meat products Consolidated list of companies and organisations that have submitted data to FSA
