U.S. Food & Drug Administration

# Import Alert 99-05

**(Note: This import alert represents the Agency's current guidance to FDA field personnel regarding the manufacturer(s) and/or products(s) at issue. It does not create or confer any rights for or on any person, and does not operate to bind FDA or the public).**

**Import Alert** # 99-05
**Published Date:** 03/06/2014
**Type:** DWPE
**Import Alert Name:**
"Detention Without Physical Examination Of Raw Agricultural Products for Pesticides"

**Reason for Alert:**
This alert provides a compilation of all raw agricultural products from individual growers that are recommended for DWPE due to illegal pesticide residues pursuant to the procedures outlined in RPM 9-25.

This alert covers specific growers/shippers. Countrywide DWPE recommendations are covered by #99-14.

**Guidance:**
Districts may detain without physical examination any shipment of the products identified in the attachment for this alert if the shipper or grower fails to provide a valid certificate of analysis showing the product does not contain illegal residues of the cited pesticide(s).

The recommending FDA district office may discontinue the DWPE recommendation based on evidence that the problem no longer exists. The FDA district will promptly notify Division of Import Operations & Policy, HFC-170, of such action so that the attachment can be revised accordingly.

In the attachment, the column listing the commodity shows the Episode number associated with the commodity directly below, along with the abbreviation of the recommending district.

**Product Description:**
Raw Agricultural Products

**Charge:**
"The article is subject to refusal of admission pursuant to Section 801(a)(3) in that it appears to contain a pesticide chemical, namely _____, which is in violation of Section 402(a)(2)(B)."

OASIS charge code - PESTICIDE
