Import Alert 16-81

(Note: This import alert represents the Agency's current guidance to FDA field personnel regarding the manufacturer(s) and/or products(s) at issue. It does not create or confer any rights for or on any person, and does not operate to bind FDA or the public).

Import Alert # 16-81
Published Date: 03/04/2014
Type: DWPE
Import Alert Name:
"Detention Without Physical Examination of Seafood Products Due to the Presence of Salmonella"

Reason for Alert:
Division of Import Operations and Policy has received recommendations from districts for detention without physical examination of seafood products due to Salmonella contamination from specific manufacturers/shippers. This import alert has been developed for seafood products from firms/countries which do not readily fit into previously existing import alerts.

This alert lists firms that were previously listed in Import Alerts 16-56, 16-65, and 16-70, which have been cancelled with issuance of this alert.

Guidance:
Districts may detain, without physical sampling and analysis, all shipments of the specified seafood product(s) from the manufacturers/shippers listed in the Red List due to the presence of Salmonella. The attachment for this alert is identified by country.

Bacteriological Analytical Manual (BAM), 7th Edition (1992), Chapter 5 is used for Salmonella Analyses.

For any issues and/or questions regarding science, science policy, sample collection, analysis, preparation, analytical methodology or confirmation tests, districts should contact the Division of Field Science at 301 796-6600.

All requests for removal from detention without physical examination should be address to DIOP 301-796-0356.

Product Description:
Multiple - seafood (see attachment)

Charge:
"The article is subject to refusal of admission pursuant to on 801(a)(3) in that the product appears to contain salmonella, a poisonous and deleterious substance, which may render it injurious to health. [Adulteration, Section 402(a)(1)]"
