Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:
Philip Shull
Prepared By:
Caroline Yuen

Report Highlights:
This report lists the certificates required by the Hong Kong government (HKG) for U.S. exports to Hong Kong. Certificate samples for various product categories are included in the appendix. There have not been any changes in Hong Kong's certificate requirements since 2008.

Updated Section in 2009 Report: attestations required on health certificates for milk and frozen confections have been included in the matrix under Section 1.

Section I. List of All Export Certificates Required By Government (Matrix) :

This report was prepared by the Foreign Agricultural Service in Hong Kong for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of certificate requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS.

(For a general guideline on agricultural and food import regulations, please refer to Gain Report # HK9018.)

Note :

APHIS	-	Animal and Plant Health Inspection Service
FSIS	-	Food Safety and Inspection Service
FEHD	-	Food and Environmental Hygiene Department
CITES	-	Convention on International Trade in Endangered Species of Wild Fauna and Flora
AFCD	-	Agriculture, Fisheries and Conservation Department
AMS	-	Agricultural Marketing Service

Products	**U.S. Issuing Authority**	**Attestation Required on Certificate**	**Purpose**	**Requesting Ministry**
Poultry	FSIS form 9060-5 (A1) Letterhead certificate (A2)	Production Dates	Health certificate	FEHD
Pork	FSIS form 9060-5 (A1)		Health certificate	FEHD
Beef	FSIS form 9297-1 (A3) Letterhead certificate (A4)	Slaughter Dates Processing Dates	Health certificate	FEHD

Products	**U.S. Issuing Authority**	**Attestation Required on Certificate**	**Purpose**	**Requesting Ministry**
Meat of Ostrich, Emu, and Rhea	FSIS form 9060 – 5 (A5)	The meat originates from birds born and raised in the U.S. Scientific name is provided	Health certificate	FEHD
	U.S. Fish and Wildlife Service – Declaration for Importation or Exportation of Fish or Wildlife (A6)		To provide scientific name	FEHD & AFCD
	If the game meat is from an endangered specie and listed under CITES, a CITES export permit is required. (A7)		To observe the Protection of Endangered Species of Animals and Plants Ordinance which gives effect to CITES	AFCD
Alligator meat	Not covered by FSIS, therefore, either one of the following certificates should be provided: 1 Export Health Certificate issued by the U.S. Department of Commerce (A8), or		Health Certificate	FEHD
	2 Certificate of Veterinary Inspection issued by individual State (A9)		Health Certificate	FEHD
	U.S. Fish and Wildlife Service – Declaration for Importation or Exportation of Fish or Wildlife (A6)	Scientific name is provided	To provide scientific name	FEHD & AFCD
	If the game meat is from an endangered specie and listed under CITES, a CITES export permit is required. (A7)		To observe the Protection of Endangered Species of Animals and Plants Ordinance which gives effect to CITES.	

Products	U.S. Issuing Authority	Attestation Required on Certificate	Purpose	Requesting Ministry
Fish & Seafood Products (not mandatory but strongly recommended by the HKG)	Either one of the following certificates to be provided: 1 Export Health Certificate issued by the U.S. Department of Commerce (A8), or 2 Certificate of Veterinary Inspection issued by individual State (A9) & (A10)		Health certificate	FEHD
Milk and Milk Beverage	Health Certificate issued by the individual State where the food product is produced. HKG accepts certificate of free sale (A11, A13.1&A13.2) and AMS certificate (A14) Certificate of Analysis showing microbiological examination and chemical composition analysis. Microbiological: total bacterial count and coliform organisms count for pasteurized products while colony count for UHT/Sterizlized products. Composition : percentage of milk fat and milk solids other than milk fat. The Certificate of Analysis has to include the certificate number of the Certificate of Free Sale or AMS certificate for cross reference. The Certificate of Analysis has to be officially endorsed by Notary Public. (A12)	The products have been handled, processed and packed under hygienic conditions and heat treated in accordance with the appropriate heat treatment regulation of the country of origin.	Health certificate	FEHD

Products	U.S. Issuing Authority	Attestation Required on Certificate	Purpose	Requesting Ministry
Frozen confections	Health Certificate issued by the individual State where the food product is produced. HKG accepts certificate of free sale (A11, A13.1&13.2) and AMS (for dairy products). Certificate of Analysis showing microbiological examination and chemical composition analysis. Microbiological: total bacterial count and coliform organisms count Composition : percentage of fat, sugar and milk solids other than milk fat (applies to those frozen confections described as ice cream only) The Certificate of Analysis has to include the certificate number of the Certificate of Free Sale for cross reference. The Certificate of Analysis has to be officially endorsed by Notary Public.	The frozen confection was handled, processed and packed under hygienic conditions and has been heat treated in accordance with the frozen confection heat treatment regulations of country of origin. The frozen confection contains not more than 50,000 bacteria per gram and not more than 100 coliform organisms per gram. The frozen confection contains not less than 5% fat, 10% sugar and 7.5% milk solids other than milk fat. (This condition applies to those frozen confections described as ice cream only).	Health Certificate	FEHD
Plants (For CITES listed Plants, e.g. ginseng)	APHIS PPQ Form (A15) CITES certificate issued by US Fish and Wildlife Service Required (A16) & (A17)		Phytosanitary Certificate To observe the Protection of Endangered Species of Animals and Plants Ordinance which gives effect to CITES	AFCD

Products	**U.S. Issuing Authority**	**Attestation Required on Certificate**	**Purpose**	**Requesting Ministry**
Because of BSE and Avian Influenza cases, the HKG recommends HK importers to provide sanitary certificates for the following products: -preserved/stuffed animal specimen -biological products of animal origin -hides and skins of cattle origin -feathers -pet food/animal feed	APHIS certificates	See circulars by Hong Kong government circulars (A18 – 22)	Sanitary certificates	AFCD
Table Eggs (The HKG is in the process of making this certification requirement mandatory. Presently, it is voluntary for Hong Kong importers to provide this certificate for U.S. egg products to Hong Kong.)	AMS	Date of production; name and address of processing plant; products fit for human consumption; Disease free certification statements as stated in appendix A23.3. (A23.1 – A23.3)	Health certificates	FEHD

Section II. Purpose of Specific Export Certificate(s)

Please refer to the Matrix under Section I.

Section III. Specific Attestations Required on Export Certificate(s)

Please refer to the Matrix under Section I.

Section IV. Government Certificate's Legal Entry Requirements

For meats, milk, frozen confections, and plant imports to Hong Kong, the relevant Hong Kong laws require that each shipment has to be accompanied by valid health/phytosanitary certificates issued by government authorities. Suppliers or Manufacturers Export Declaration are not regarded as valid certificates.

Poultry, Red Meats and Game Meats

A certificate from FSIS is compulsory. Species should be given as part of product description on FSIS certificates.

If the specie is not covered by FSIS inspection, a certificate issued by APHIS or the state government may be acceptable.

If the shipment is of a game meat product, the certificate has to show the scientific name and the origin.

If the game meat comes from a CITES listed specie, the shipment requires to be accompanied by a CITES export permit.

For beef products, Hong Kong currently allows entry of U.S. boneless beef derived from cattle under 30 months of age.

An import protocol for U.S. bison meat to Hong Kong has yet to be established.

Marine Products

While no specific Hong Kong laws state health certificates for marine products are compulsory, FEHD strongly encourages importers to obtain certificates issued by U.S. authorities to accompany their imports certifying that the marine products concerned are fit for human consumption. Valid certificates will expedite customs clearance.

Milk and Frozen Confections
Hong Kong laws require the importation of milk and frozen confections to obtain prior approval. In addition, each consignment has to be accompanied by a valid certificate. For products from the U.S., Hong Kong government accepts certificates issued by the State government.

Plants
Hong Kong government requires plant shipments from the U.S. to be accompanied by Phtosanitary certificates issued by APHIS. If the specie is listed on CITES, a CITES export permit is required as well.

Eggs
The U.S. and HKG have reached an agreement with regard to the future certificate requirement for U.S. egg exports to Hong Kong. Presently, it is not yet mandatory for U.S. egg exports to Hong Kong to be accompanied by a health certificate. However, the HKG is encouraging the trade to provide health certificates. The HKG is in the legislative process of requiring health certificates for all egg imports mandatory and plans to introduce the bill to the Legislative Council in 2010. Included in the appendix is a certificate sample agreed by the U.S. and Hong Kong governments.

Section V. Other Certification/Accreditation Requirements

Hong Kong's importation of meats, milk, frozen confections and plants are subject to licensing control. Importers are required to apply for an import license for every shipment except for milk and frozen confections. Import licenses for milk and frozen confections are valid for a period of time and there is no limit of import volume within the specified time provided in the license. Import licenses for milk and frozen confections are renewed usually on a yearly basis but are valid only for six months for the first four renewals.

The importation of milk and frozen confections to Hong Kong must have prior approval from FEHD. Importers have to provide the full name and address of their frozen confection processing plants, the law of the country of origin governing the production of frozen confections/milk; mock packaging with labels; information of heat treatment method, etc.

A2. FSIS Letterhead Certificate for Poultry

United States Department of Agriculture | Food Safety and Inspection Service | Washington, D.C. 20250

Letterhead Certificate for Raw Poultry Meat Exported to Hong Kong

Date Issued _____ **Certificate Number** 130405

1. The meat was derived from birds found clinically free from generalized contagious, infectious and parasitic diseases.
2. The meat was derived from birds that were free from clinical signs of avian influenza (AI) and Newcastle disease (ND). The birds have been kept on farms free from AI and ND and not situated in an AI or ND infected zone, as defined by OIE. The birds were slaughtered in an establishment not situated in an AI or ND infected zone and were found to be healthy upon ante- and postmortem inspection.
3. The birds, from which the meat was derived, were subject to ante- and postmortem veterinary inspection by an official veterinarian and the meat was found to be sound, wholesome and fit for human consumption.
4. The birds were slaughtered, processed, cut and stored in establishments approved by USDA/FSIS and are eligible to produce and store poultry meat for domestic and international commerce.
5. The birds have been slaughtered and processed hygienically and the meat complies with all current USDA laws and regulations.
6. The poultry meat was packed and transported under hygienic conditions.
7. The poultry meat has been produced subject to the U.S. National Residue Program. The results of the tests have not provided any evidence of the presence of chemical/drug resides or toxic substances which could be harmful to human health.
8. The consignment of poultry meat was derived from live poultry which had been subjected to ante- and postmortem inspection and were found free of highly pathogenic avian influenza.

To Whom It May Concern:

RE: Certificate of Free Sale and Sanitation

The Dairy Section of the Vermont Agency of Agriculture, Food & Markets, a governmental agency responsible for the licensing and inspection of all dairy operations in the State of Vermont, hereby certifies that

operates a dairy manufacturing establishment, producing both dairy and non-dairy frozen confections, which is licensed by the Vermont Agency of Agriculture, Food & Markets and is inspected by inspectors employed by the State of Vermont.

We certify that the facilities, equipment and raw materials and the processing and packaging procedures meet with all of the sanitary requirements of the State of Vermont and that the operations are in good standing in every respect.

We further certify that the products manufactured by

at their manufacturing plants in are fit for human consumption and are freely and without qualification sold in the State of Vermont and the United States.

Sincerely,

Byron D. Moyer, Chief
Dairy Section

Subscribed and sworn to before
me this 1st day of May, 2009

Re: " Brand Product from U.S.A.

ILLINOIS DEPT. OF CERTIFICATE FOOD, DRUGS & DAIRIES SEAL PUBLIC HEALTH

We certify that:

(A) Illinois, is designed, equipped and operated in such a way as to produce ice cream, frozen yogurt and other frozen confections of wholesome and salable quality.

(B) The ice cream , frozen yogurt and other frozen confections are handled, processed, and packed under hygienic conditions and have been pasteurized in accordance with frozen confections pasteurization regulations of the State of Illinois, Department of Public Health, Division of Food, Drugs, and Dairies, USA.

(C) The ice cream and other frozen confection products are inspected to fulfill the Illinois state regulations which are: maximum 50,000 bacteria per gram and maximum 20 coliforms organisms per gram.

(D) The ice cream products will contain not less than 5% fat, 10% sugar, 7.5% milk-solids-not-fat. (This condition applies only to frozen confections named ice cream.)

(E) The frozen yogurt has been subjected to heat treatment properly and afterwards fermented by *Streptococcus thermophilus, Lactobacillus delbrueckii* subsp. *bulgaricus, lactobacillus acidophilus,* and *Bifidobacterium longum.*

(F) The titratable acidity of the frozen yogurt and the bacterial quality of it conform to the relevant U.S.A. Code of Federal Regulations, incorporated by reference in State of Illinois Manufactured Dairy Products Rules.

(G) The product is fit for human consumption.

Circular Letter for Importation of preserved/stuffed animal specimen

Dear Sir/Madam,

Importation/transhipment of preserved/stuffed animal specimen to/via Hong Kong

We have no objection to the importation/transhipment of preserved/stuffed animal specimen to/via Hong Kong provided that:

The consignment is accompanied by a veterinary certificate certifying the following, issued/endorsed by the relevant official veterinary authority of the Government in the country of export.

1. The animal carcass(es) was/were derived from animals free from infectious diseases and in accordance with the standards as laid down by the World Organisation for Animal Health (OIE).
2. The animal carcass(es) was/were properly treated or processed to kill any infectious or contagious organisms in the carcass(es).
3. For transhipment, prior approval is obtained from the veterinary authority in the country of import for the importation of preserved/stuffed animal specimen.
4. The preserved/stuffed animal specimen(s) was/were packed and sealed to prevent leakage in accordance with the International Air Transport Association (IATA) requirements.

If the specimen(s) was/were derived from endangered species, a CITES Import/Possession Licence issued by this department must be obtained prior to shipment. Besides, CITES Export Permit issued by the CITES Management Authority of the exporting country is also required.

You are also reminded to of the need to seek the approval of the Port Health Office, Department of Health, Hong Kong for the importation of preserved/stuffed animal specimen. (Tel.: 2961-8852, 2961-8991; email: enquiries@dh.gov.hk)

Yours faithfully,

CIRCULAR LETTER REGARDING IMPORT OF FEATHERS TO HONG KONG

It is recommended that sanitary certificate issued by the competent Government veterinary authority of the country of export certifying the following is to be accompanied with feathers importing to Hong Kong.

1) ***The feathers were derived from birds that were not within an area that was under any restrictions imposed by the national veterinary authority for the control of avian influenza;***
2) ***The feathers were treated by one of the following methods:***
   - ***(a) washed thoroughly in detergent followed by boiling or steam sterilization at a core temperature of at least 100 °C for a minimum of 30 minutes; or***
   - ***(b) washed thoroughly in detergent followed by formaldehyde fumigation (10% formalin) for 4 hours; and***
3) ***Assurance that the treated feathers could not be contaminated by raw materials or by equipment or personnel in contact with raw materials between processing and export***

Thank you for your attention in this matter.

Yours faithfully,

Dr. Michelle YEUNG
Veterinary Officer (Import and Export)
for Director of Agriculture, Fisheries and Conservation

Shell Egg Grading Certificate No. SEA - 1054453 Dated: Dec. 10, 2007

"The U. S. Department of Agriculture, Animal and Plant Health Inspection Service, Veterinary Services certifies that:

No cases of notifiable avian influenza (NAI), including the highly pathogenic subtype H5N1, and no cases of velogenic Newcastle disease (VND) have been reported in commercial laying chicken flocks in the county(ies) of origin where the eggs originated for the 3 months preceding departure of this consignment. These eggs were produced in the county(ies) in the state of **Arkansas** identified below:

Pulaski County

The shell eggs covered by this certificate were produced by birds originating from Salmonella enteritidis (SE) -certified breeding flocks which have not been identified within 90 days before shipment by the U.S. Department of Agriculture, Animal and Plant Health Inspection Service, as being infected with SE, including SE phage type 4."
