für die Nahrungsmittelhilfe — Empfehlung für
die Auswahl des Sacktyps und der Innensäcke
in Bezug auf das zu verpackende Produkt

This European Standard was approved by CEN on 1994-12-14. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Central Secretariat: rue de Stassart 36, B-1050 Brussels

Foreword

This European Standard has been prepared by the Technical Committee CEN/TC 120, Sacks for the transport of food aid, of which the secretariat is held by NNI.

This standard is one in a series of standards on sacks for the transport of food aid which have been drawn up following a request from CEC.

This European Standard does not impose restrictions on the choice of sack and liner in relation to the product to be packed, but gives recommendations. The recommendations are based on the experience that has been gained in this field.

Requirements for the different types of sacks are given in EN 277, EN 765, EN 766, EN 767, EN 768, EN 769, EN 770, EN 787 and EN 788.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 1995, and conflicting national standards shall be withdrawn at the latest by October 1995.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.

1 Scope

This European Standard gives guidance on the selection of type of sack and the liner in relation to the product to be packed for the transport of food aid.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 277	<i>Sacks for the transport of food aid — Sacks made of polypropylene fabric</i>
EN 765	<i>Sacks for the transport of food aid — Sacks made of polyolefin fabric other than polypropylene only</i>
EN 766	<i>Sacks for the transport of food aid — Sacks made of jute fabric</i>
EN 767	<i>Sacks for the transport of food aid — Sacks made of woven jute/polyolefin fabric</i>
EN 768	<i>Sacks for the transport of food aid — Sacks made of lined cotton fabric</i>
EN 769	<i>Sacks for the transport of food aid — Sacks made of woven cotton/polyolefin fabric</i>
EN 770	<i>Sacks for the transport of food aid — Paper sacks</i>
EN 787	<i>Sacks for the transport of food aid — Sacks made of polyethylene film</i>
EN 788	<i>Sacks for the transport of food aid — Tubular sack packages made of composite film</i>
ISO 5636-5	<i>Paper and board — Determination of air permeance (medium range) — Part 5: Gurley method</i>

3 Recommendation on the type of sack and the liner in relation to the product to be packed

The type of sack and the liner used for the transport of food aid should be chosen as given in table 1.

The sack shall comply with the relevant European Standard for the type of sack, i.e. for sacks with the outer ply made from fabric of:

- polypropylene: see EN 277;
- polyolefin other than polypropylene: see EN 765;
- jute: see EN 766;
- jute/polyolefin: see EN 767;
- cotton: see EN 768;
- cotton/polyolefin: see EN 769;
- paper: see EN 770;
- polyethylene film: see EN 787;
- composite film (tubular sacks): see EN 788.
